AMEER HAMZA

WEB DEVELOPER | FULL STACK & FRONTEND

Phone: 03136426280 • Email: ameerhamza031364@gmail.com • Address: Azizia Town, Gujranwala

PROFILE SUMMARY

Passionate Frontend & Full Stack Developer with expertise in React.js, Next.js, and modern JavaScript. Proven experience building responsive, scalable enterprise web applications using HTML5, CSS3, Tailwind CSS, Bootstrap, Redux, and REST APIs. Skilled in backend integration with Laravel and MySQL. Dedicated to clean, maintainable code, role-based security, query optimization, and collaborative teamwork.

TECHNICAL SKILLS & COMPETENCIES

- Frontend: React.js, Next.js, Redux.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, TypeScript
- Backend & DB: Laravel, MySQL, RESTful APIs, Node.js, MongoDB, Express.js, Role-Based Access Control (RBAC)
- Tools & Workflow: Git, GitHub, Postman, Vite, Figma, Component-Driven Architecture, Performance Optimization

WORK EXPERIENCE

Adroit light Solutions

02/2026 – Present

Full Stack Developer | Enterprise Software Systems

ERP System (Core Operations & Business Modules)

Developed and maintained a comprehensive ERP system to streamline core business operations, covering inventory, sales, purchasing, accounts, and reporting modules. Built responsive, reusable interfaces using React.js and Redux, and developed secure RESTful APIs with Laravel and MySQL. Implemented role-based access control, data validation, and query optimization.

POS System (Point of Sale & Stock Management)

Built a Point of Sale (POS) system for fast, accurate retail billing and stock management. Implemented product search, cart and checkout flows, invoice generation, discounts, inventory tracking, and daily sales reports. Integrated a responsive React.js frontend with REST APIs and MySQL database.

The PARA Platform

Contributed as a Full Stack Developer to The PARA platform, delivering responsive user interfaces and integrating REST APIs with backend services. Focused on clean, maintainable code, performance optimization, and cross-device consistency.

EDUCATION

Bachelor in Business & Information Technology (BBIT)

In Progress

Virtual University • Focus on Software Engineering, Information Systems & Web Architecture

FSc Pre-Medical

Completed

Punjab College Gujranwala • Strong analytical foundation and scientific methodology
